Test A/B
Usability testing

Experience

Web Projects

Web Designer and Developer Front-End

Hoffson

Hoffson is a small (fake) ikea like site that you can find and buy items. I coded it in my spare time to learn how to make ecommerce sites.

Developer UI

Oct.2020

Nov.2020

Thomas Jauze

This site is the personnal portfolio of Thomas Jauze. My role was to implement prototypes using Vue.js / Css and JavaScript.

Web Designer

May.2020

Projec'toi

Projec'toi is a company that connects freelancers with clients. My role in this project was to design a few pages using Photoshop, Illustrator and Xd.

Developer Front-End

Sep.2019

Discord Invite V2

DiscordInvites is a discord server advertising website. I assisted the team on the app using jQuery, HTML and CSS.

School Projects

Developer C

Apr.2020

Cub3D

Cub3d is a project of 42 inspired by the game Wolfenstein 3D allowing to explore the techniques of ray-casting and applied mathematics. The goal is is to make a dynamic view within a labyrinth, in which you will have to find your way.

Developer Java

Jun.2019

RSA Encryption

Cryptography is one of the disciplines of cryptology focusing on protecting messages, often with the help of secrets or keys. The aim of this project was to create an algorithm to encrypt messages using RSA encryption.
